ACI Air

What is ACI Air?

The Advance Commercial Information (ACI) program was introduced by the Canada Border Services Agency (CBSA) as a major part of the Customs Action Plan to better manage risks by effectively identifying health, safety and security threats at the border.

ACI requires all air carriers and freight forwarders to electronically transmit conveyance, cargo, house bill and supplementary cargo data to the CBSA four hours prior to arrival in Canada. If the flight is less than four hours in duration, conveyance, cargo and supplementary cargo data must be reported at the time of departure from the foreign airport.

How does it work?

Our platform allows trade participants to submit the full range of CBSA mandated requirements such as Air Conveyance Reporting (ACVR), and Air Cargo Reporting (ACR) and Split Shipment Reporting (SSR). House bill or Supplementary Cargo Report (SCR) feature is available for shipments consigned to freight forwarders.

Our platform also relays Risk Assessment Notices when applicable. "Hold" and "Hold Cancellation" messages are sent back through the portal. These messages are easily accessed, allowing users to rapidly take the appropriate corrective measures.

Timeframes for Air Conveyance Reporting

4 hours prior to arrival

Conveyances with duration excess of four hours

Commercial cargo on a flight in excess of four hours

Electronic Housebill (eHBL) or Supplementary cargo reports for commercial cargo on a flight in excess of four hours

Time of departure

Conveyances with duration less than four hours

Commercial cargo on a flight less than four hours

Electronic Housebill (eHBL) or Supplementary cargo reports for commercial cargo on a flight less than four hours

Benefits

Secure Corporate Account	24/7 Customer Support
File and amend air waybills electronically	Communicate flight departures electronically
Multiple Plans & Connectivity Options	Streamlined & Easy-to-Use Application
Easy-to-use upload feature for high volume of transactions	Receive cargo status notifications as soon as Customs is notified that the flight has departed from the last foreign port
Report Generation Capabilities	Advanced Integration Options
Quick eManifest preparation and responses with email and cell phone SMS notifications	Save time and money by filing directly to CBSA

Subscription options

WEB

Many enhanced features on the web account are available to ease your data entry, such as CSV upload feature and a customized data master. Email or SMS alerts for responses received from CBSA are communicated directly to the filer and other team members in the organization

ACI AIR FILING SERVICE

The BPO solution is a program for filers who may need after-hours or holiday support. Simply fax or email your paperwork to our 24/7 ACE processing facility and we will prepare and submit the Airway Bill data to CBSA.

INTEGRATION

If operating with an in-house or 3rd party software, we offer data integration that can seamlessly transfer Airway Bill submissions and responses directly to CBSA. GeTS will work with your IT so that filers don't have to re-key the same data across different applications.

GeTS

Global eTrade Services (GeTS) is a CrimsonLogic subsidiary and a key growth engine for the Group. GeTS has a comprehensive suite of global trade connectivity services that helps traders meet regulatory and compliance requirements from Government agencies and trade associations around the world. Based on a SaaS model, GeTS is centred on a global trade platform that facilitates cross-border trade with Compliance Connectivity, eAdvisory and Data Analytics suite of services.
